Backend Developer with hands-on experience in building RESTful APIs using PHP (Laravel) and Node.js. Currently working as an intern at Programmer Force, focusing on API development and database optimization. Passionate about learning new technologies and improving development skills.

EXPERIENCE

PROGRAMMER FORCE

Intern

January 2026 – Present

Lahore Pakistan

- Developed and maintained RESTful APIs using Laravel and Node.js
- Designed and managed databases using MongoDB
- Collaborated with frontend developers for seamless integration
- Optimized API performance and improved database queries
- Worked in a professional team environment following best practices

PROJECTS

Real-Time Chat Application

- Collaborated on development of a real-time chat application with secure authentication in **Laravel**
- Developed **Team Module** for managing users and roles
- Implemented **Global Activity Logging System** to track user actions
- Created scheduled command to **automatically delete 30-day old data from MongoDB**
- Contributed to backend performance and database optimization

University Management System

- Worked in a team to build a university management system
- Developed **frontend UI** using **React.js**
- Designed responsive pages for Admin, Faculty, and Students
- Integrated APIs for dynamic data display
- Contributed to backend performance and database optimization

AI-Powered PDF Processor

- Developed an **AI document processor** using **Python** and **PyMuPDF**.
- Built an **OCR module** with **Tesseract** for text extraction from images/PDFs.
- Enhanced **OCR accuracy** through advanced image preprocessing techniques.
- Streamlined **data flow** by integrating OCR output into the processing pipeline.

SKILLS

Backend : PHP (Laravel), Node.js (Express)

Frontend : HTML, CSS, JavaScript, Vue.js

Database : MongoDB, MySQL

Tools : Git, GitHub, Postman, REST APIs

EDUCATION

University of Education Lahore

BS (Information Technology)

2021 – 2025

Lahore, Pakistan
