Professional Summary

Full-Stack Web Developer with practical experience in designing and developing responsive, scalable web applications using modern front-end and back-end technologies. Skilled in API development, problem-solving, and collaborative software development.

Technical Skills

Languages: JavaScript, Python, Java, C++, C#

Frontend: HTML, CSS, JavaScript, Vue.js, Vite

Backend: Django, Django REST Framework, REST APIs, JWT Authentication

Databases: PostgreSQL, MySQL, SQLite

Tools: Git, GitHub, VS Code, Postman

Core Skills: Full-Stack Web Development, API Development & Integration, Database Design, Responsive Web Design, Problem Solving, Teamwork

Other: Embedded Systems, Mobile Development

Projects

ANCS — Auto Network Configuration System (Graduation Project)

Designed and developed an AI-powered network automation platform that simplifies network configuration, deployment, and monitoring. The system supports automated configuration generation, secure remote device management, AI-assisted troubleshooting, and GNS3 integration using **Python**,

- **ANCS Website – Frontend**

Developed a responsive frontend application for the ANCS Website using Vue.js and Vite.

Implemented user authentication, responsive UI, and integrated with the Django REST Framework API using RESTful services.

- **ANCS Website – Backend**

Developed a production-ready backend using Django REST Framework.

Implemented JWT Authentication, Google OAuth, user management, contact APIs, and PostgreSQL database integration.

Designed secure RESTful APIs to support the frontend application.

- **Doctor Appointment Booking System**

Developed a responsive doctor appointment booking interface with a modern and user-friendly design.

Technologies: Vue.js, Bootstrap 5, HTML5, CSS3, JavaScript.

- **Hedayati Mobile App**

Built a cross-platform Flutter application with a clean, responsive, and user-friendly interface.

- **Garage Smart System**

Developed an IoT-based smart parking system for monitoring parking availability and vehicle management.

Education

Bachelor of Technology in Software Engineering New
Cairo Technological University (NCTU) Graduated: 2026

Certifications

- WE Summer Training Certificate
- ITI Summer Training Certificate
- Samsung Innovation Campus Certificate
